FXTrade
RAISING CAPITAL, FUELING SUCCESS
Consulting Pvt. Ltd.

Raising Capital. Fueling Success.

Financial expertise for businesses navigating funding, trade, and treasury requirements.

Who We Are

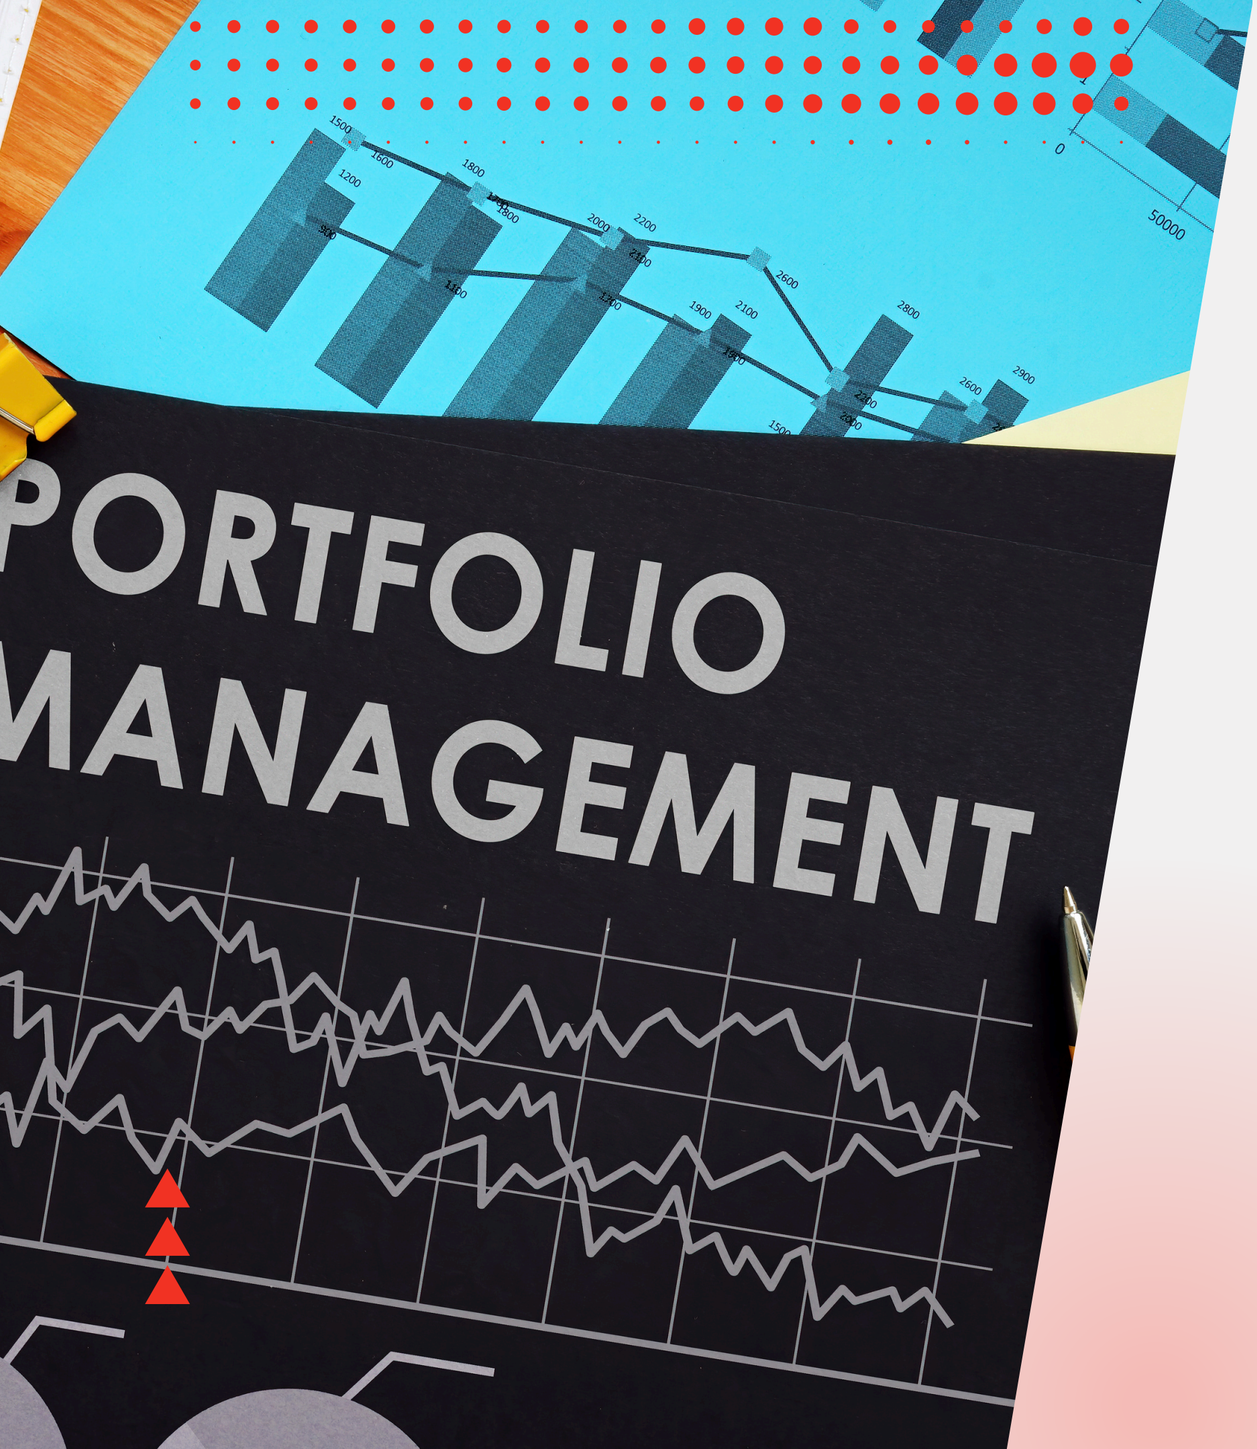

Financial Expertise. Business Perspective.

FxTrade Consulting Pvt. Ltd. operates in the specialized fields of domestic and international trade-finance syndication and treasury services.
Our team brings experience across banking, treasury, and trade finance to support businesses navigating complex financing requirements and financial operations.
We work with clients to explore funding options, coordinate trade-finance processes, and evaluate treasury and foreign-exchange requirements in line with their business needs.

Our focus

- Trade and working-capital finance
- Debt syndication and funding advisory
- Foreign-exchange and treasury services
- Financial risk-management support

Our Service Portfolio

A Connected Approach to Corporate Finance.

01. Debt Syndication

Funding-structure assessment and coordination with potential lenders.

02. Trade Finance

Import and export finance, supplier credit, LC discounting, and export factoring.

03. Forex & Treasury

Treasury consulting, foreign-exchange risk advisory, and transaction-process outsourcing.

04. Corporate Financial Services

Liability management, asset-liability management, structured-product analysis, training, and market intelligence.

Trade Finance
Supporting the Financial Side of Trade.

Domestic and international trade involve multiple financial requirements, from supplier payments and bank documentation to export receivables and transaction settlement.
FxTrade's trade-finance service portfolio covers a range of financing structures intended to address these requirements.

Our areas of support

- Import finance
- Export finance
- Supplier credit
- Inland letter-of-credit discounting
- Export LC discounting
- Export factoring

Import Finance & Supplier Credit

Flexible financing solutions for imports.

Supplier credit arrangements to manage cash flow.

Streamlined trade finance and payment support.

Export LC Discounting

Explore Funding Against Eligible Export Transactions.
Exporters may face a gap between completing a shipment, receiving payment under a letter of credit, and meeting ongoing business expenses.
Export LC discounting is a financing arrangement that may allow eligible exporters to receive funds before the LC maturity date, subject to the relevant bank's terms and acceptance.

Transaction support

- Review the proposed LC transaction.
- Coordinate with the relevant banks.
- Facilitate document submission and checking.
- Support the discounting process.
- Coordinate settlement in line with agreed terms.

Business relevance: Evaluate whether discounting may help address working-capital requirements associated with eligible export receivables.

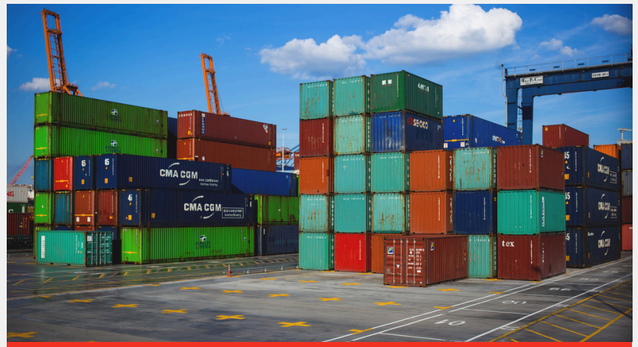

Export Factoring

Explore Financing Options for Export Receivables.

Invoice Discounting

Convert unpaid export invoices into immediate working capital instead of waiting for buyers to pay.

Export Factoring

Access funds against export receivables while simplifying collections and improving cash flow management.

Export Credit Financing

Explore financing solutions based on outstanding export payments to support business operations and manage working capital needs.

Forex & Treasury Services

Research
Research and market intelligence

Liablity
Liability management

Foreign-exchange movements and treasury decisions can influence business costs, cash-flow planning, and financial exposures. A structured treasury approach can help businesses understand these exposures and evaluate appropriate management processes.

Corporate Advisory & Risk Management

Financial Decisions Backed by Structured Analysis.
Effective financial management requires businesses to understand their funding obligations, operational exposures, and treasury requirements.

How to Risk Management

FxTrade's existing service portfolio includes advisory and support across the following areas:

- **Risk Management:** Review relevant financial exposures and management processes.
- **Liability Management:** Evaluate existing obligations and financing considerations.
- **Asset-Liability Management:** Assess the relationship between financial assets and liabilities.
- **Structured Products:** Product analysis and design support, where applicable.
- **Transaction Process Outsourcing:** Support for agreed financial and treasury workflows.
- **Training & Research:** Provide relevant training and market information.

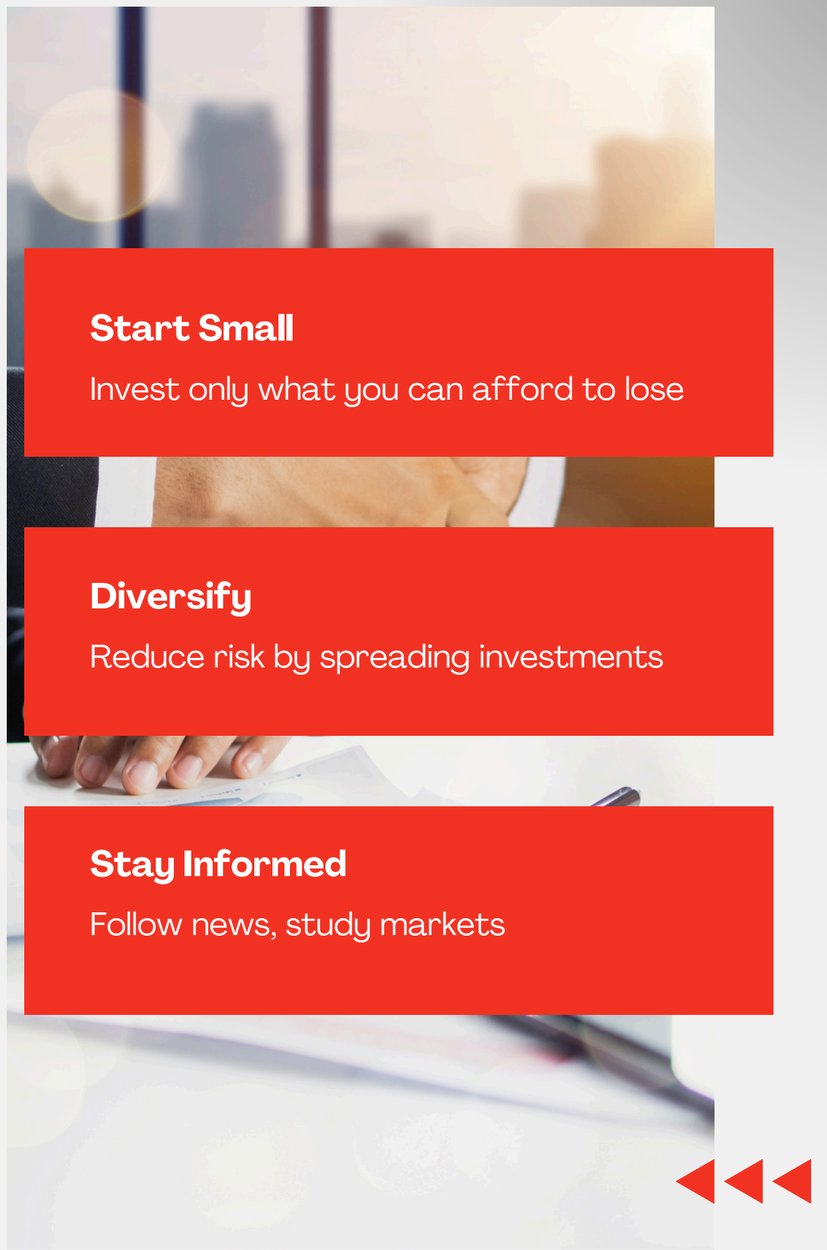

A business-focused perspective: Align the scope of advisory support with the client's specific requirements and the applicable regulatory framework.

Experience & Corporate Portfolio

Experience Across Business and Financial Requirements.
FxTrade's current brochure identifies clients across multiple industries, including solar energy, machinery, software, and manufacturing.
It also states that the company serves more than 150 corporates and that its team brings approximately 30 years of combined experience in banking, treasury, and trade finance.

150+
Corporates served, as stated in the existing brochure

30 years
Combined team experience, as stated in the existing brochure
Prominent figures should be used only after the company confirms their accuracy, measurement basis, and current validity.
Industries referenced Solar Energy · Machinery · Software · Manufacturing
Our approach Understand the business requirement. Evaluate relevant financial structures. Coordinate with the appropriate institutions. Support the agreed process.

Start Small
Invest only what you can afford to lose

Diversify
Reduce risk by spreading investments
